which so completely puzzles the doctors as Erysipelas. They admit that it is a blood trouble, but like other such diseases, they are unable to effect a

It is not surprising that those who, are afflicted with this distressing dis-case should suffer such untold agonies. Like a consuming flame, it covers the skin with a fiery, burning redness which is almost unbearable, and only those who have been so afflicted can describe its tortures.

Aside from the suffering which Ery-

sipelas causes, there is always great danger attending the disease, unless promptly checked. The inflammation spreads through the tissues of the skin and, when a vital part is attacked, the result is disastrous. Often the bones are affected, and become so diseased that they crumble away, leaving the patient an invalid for life.

Here is such a case, where the dec-tors were unable to afford relief, and strongly urged an operation.
Miss Ada Wainwright is a most esti-

mable young lady, residing at Alamo, Tenn. After being under the doctor's care constantly for three years and declared incurable, she saw before her only the gloomy life of an invalid. Under date of May 8th, 1896 she writes :

"I feel it my duty to inform you of the great good I have received from your remedy, S. S. S., for I am sure that it saved my life. For three years

MISS ADA WAINWRIGHT.

I have suffered agonies with bone erysipelas, and though under treatment of the best physicians, I found no relief. One of my limbs was so swollen and inflamed that the doctors found it necessary to keep it lanced, and the bone became so diseased that several pieces were discharged through the opening. It is impossible to describe the suffering I had to endure; sometimes able to hop around on crutches, and again unable to turn myself in bed. I was so reduced in health that I weighed

only eighty pounds. "After lingering for three years, having been treated by four doctors, I was finally told that I was incurable, and that I would have to submit to the painful operation of having the bone scraped, or it would be necessary to amputate the limb. This I positively

refused to submit to. "A friend recommended S. S. S., knowing of its wonderful reputation as a blood remedy, and when I had finished one bottle I felt an improvement. I grew better as I continued the medicine, and after taking six bot-tles I was entirely well, my skin was clear and pure, and I have no sign of the terrible disease. I gained in health and strength until I now weigh 130 pounds, and all my relatives riends are astonished at the wonderful cure made by S. S. S."

The above is but one of the many wonderful cures being made daily by S.S.S. Experience has shown that the doctors are absolutely unable to cure diseases of the blood, and of the many blood remedies offered to the public to-day, S. S. S. is the only one which cures obstinate and deep-seated cases. For real blood troubles, S. S. S. has no equal. It wipes out completely the most obstinate cases of blood diseases, which other remedies do not seem to touch. S. S. S. gets at the root of the disease, and forces it out permanently.

S. S. S. is guaranteed Purely Vegetable,

and is a positive and permanent cure for Erysipelas, Scrofula, Eczema, Tetter, Cancer, Rhenmatism, and all traces of bad blood. Our valuable books will be mailed free to any address. Swift Specific Co., Atlanta, Ga.
